

# SOLITERM, TYPE ST-2K

**Thermocouple K**

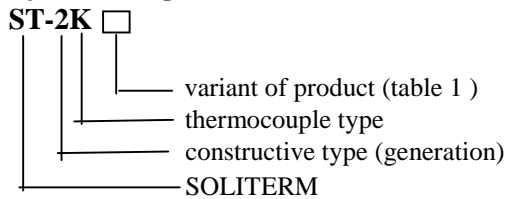

SOLITERM type **ST-2K** is part of the measuring chain

for quick determination of equivalent carbon in cast iron.

## TECHNICAL DATA

- Dimensions:  $\square 52 \times 70$  mm
- Max. operating temperature: 1300°C
- The product is used only for 1 (one) measurement

## Symbolising :

**Table 1**

<i>Variant of product</i>	<i>Code</i>
Without tellurium and without thermal protection layer	WTe.0
Without tellurium and with thermal protection layer	WTe.1
With tellurium	Te.1
With 2 x tellurium	2Te.1

## ORDERING

Ex.SOLITERM without tellurium and with thermal protection layer for quick determination of carbon in cast iron :  
"SOLITERM type **ST-2K. WTe.1**"

## APPLICATION
